Career Objective

Full Stack Developer with 3.5+ years of experience in building, testing, and deploying complete web applications across front-end and back-end technologies. Skilled in Angular for creating responsive user interfaces and Django/PHP for developing robust server-side logic. Experienced in writing clean, efficient, and scalable code while collaborating with teams to deliver reliable solutions. Proficient in JavaScript, Angular, Python/Django, PHP, API development, and cloud platforms. Passionate about learning new technologies and continuously improving product performance, quality, and user experience.

Experience

Senior Developer

May 2024 – Present

Vinsinfo Pvt Ltd, Chennai, India

- Customized 10+ BigCommerce themes focused on widget development, responsive design, and site performance optimization.
- Resolved 15+ production bugs, improving application stability and performance.
- Reviewed and approved Git pull requests; contributed to scalable Angular-based modules.
- **Full-Stack NFC Integration — Python (Django), JavaScript, HTML/CSS**
 - Independently developed a mobile-compatible NFC solution with tag read/write functionality using Django and JavaScript, covering the full project lifecycle from planning to client delivery. Implemented advanced browser permission handling and ensured seamless cross-platform performance on mobile devices.
- **Secure Authentication & Dashboard APIs — Django, AWS SES SMTP**
 - Built a secure authentication system with OTP-based login and password recovery using Django and AWS SES SMTP. Independently developed dashboard APIs and implemented robust session and token validation following best practices.

Developer

June 2022 – April 2024

Vinsinfo Pvt Ltd, Chennai, India

- Developed eCommerce solutions for BigCommerce/Shopify using PHP, JS, and Stencil.js.
- Delivered features like geo-pricing, store pickup, and intelligent product recommendations API's.
- Optimized site performance using GTmetrix and PageSpeed Insights.
- Implemented GA4 tracking for banners, videos, and product interactions.
